

# SNOWDONIA NURSERIES

## SPECTACULAR CHRISTMAS DISPLAYS AT GLAN CONWY

**Why not take time out from your busy festive shopping schedule to enjoy a visit to the spectacular Christmas displays at Snowdonia Nurseries at Glan Conwy?**

This year, the owners claim to offer 'The Best Christmas Displays in North Wales,' and have created eleven inspirational themed displays to suit every taste.

"It's a most delightful and beautiful display," said business partner, Richard Evans, who added: "We like to think it's a bit different – with interesting and unusual merchandise."

Snowdonia Nurseries have developed an enviable reputation for quality, established after more than twenty-years of steady trading.

They are conveniently situated at Glan Conwy, just off the A55; and in addition to offering spectacular views of the estuary, and a superb range of plants, also provide first class car parking for the disabled - and an excellent coffee shop.

Richard, who has a BSc honours degree in horticulture from Bath University, is vastly experienced, and readily available to offer friendly advice on all potential purchases.

He is justifiably proud of all their goods and confirmed: "We don't just put anything on the shelves. We specialise in quality, and offer a comprehensive range of associated Christmas products."

Amongst just some of the items available at his wonderful Aladdin's cave of goodies are decorative Christmas lights for both indoor and outdoor displays; very bright and long life LED lights; artificial Christmas trees; candles, table and giftware - plus real Christmas trees available from the first week in December.

A major highlight at the Centre is Snowdonia's spectacular festive creation entitled, 'The Frost & Snow' cottage, set in a frosty forest by a frozen lake.

This beautiful and unique display is certain to prove popular with young and old alike and automatically creates and enhances the true Christmas spirit. Admission is free, with donations accepted towards the Hope House/Ty Gobaith charity.

In addition to their wide range of festive products, they also have numerous soft fruit displays, together with bare rooted hedging plants, potted rose trees and stocks of poinsettias and cyclamen.

And when all the shopping is completed, take some time to relax and enjoy some light refreshments in the Olive Tree Coffee Shop; where home made cakes, tea, coffee, and snacks form an essential part of a varied menu. ■
